

Fuel cost comparisons based on published figures available March 10, 2008

Fuel	Fuel/ 1 million Efficiency BTUs of usable heat	Average cost/unit	Total cost 100M house	
Propane	79	13.9 gallons	2.60/gal	\$3,614.00
Fuel oil #2	85	8.5 gallons	3.55/gal	\$3,017.50
Seasoned firewood	77	0.1 cords	230/cord	\$2,300.00
Electricity	98	299.0 kWh	.1/kWh	\$2,990.00
Premium wood pellets	85	0.1 tons	240/ton	\$1,721.66

Total cost comparisons assume an average house requiring 100 million BTUs of usable heat per year, such a house is using roughly 850 gallons of #2 heating oil per year.
